Jen Meyer

Includes stream table cart, plotting grid, the Rainmaker, and Stream Table Sand Stream. Table allows the class to create actual streams, lakes, and related landforms. Stream cutoffs, piracy, deltas, beaches, land erosion, and many other phenomena can be modeled. High impact, 26"W x 66"L x 6"D weighs about 170#

Notes: allow 3 days for clean up to dry out medium, sanitize reservoir after use, takes 11 gallons of water and 1/2cup bleach or vinegar, use a 5 gal bucket worth of grit to fill
